THE COMPANY

SPOLEČNOST

Europe is a land of small businesses with a long history of fierce competition. Their ancient roots can still be seen today, as each one tries to distinguish itself from the others by developing original designs. This is true in all fields. Bathroom furnishings are one of them. Nowhere else in the world can you find such a variety of artistically designed bathroom furniture and accessories as in Europe.

Leta Keramik, a company of Germany origin, located in Praha, is dedicated to continuing this legacy in order to enrich European private homes and lifestyles as well as public facilities with ingenious and inspiring bathroom collections. As a result of Leta's collaboration with designers from around the world in defining the future bathroom styles, the company specializes in both contemporary and transitional styles for commercial, retail, hospitality, and residential applications in standard and custom settings. Our complete product collections are constantly changing and expanding as we restlessly strive to shape the forthcoming market trends.
